Face Painting, Colouring Pictures, Dot to Dot, Cut out and Colour

The Beavers will get the chance to do a wide variety of craft activities

Nature Detectives

The Beavers will get to explore the local area and its flora and fauna

Night Walk

Led by a guide, the Beavers will go on a night walk around the Country Park.

Ceramic Paint Session

An excellent and well led session that all Beavers will enjoy

Accommodation

Wat Tyler Country Park

The Park covers an area of 125 acres and contains a variety of habitats including hawthorn scrub, wildflower meadows, grassland, reed-beds, ponds, tidal creeks and saltmarsh. These are all rich in plant and animal life which includes a number of locally and nationally rare species. It is for that reason that the Park has been designated a Site of Special Scientific Interest, a national designation for important wildlife sites and commonly referred to as S.S.S.I.

The fully equipped residential centre has two dormitories, each sleeping sixteen, with en-suite showers and toilets. Two smaller rooms, a two bed with shower and toilet, and a four bed room. All beds are bunk style. A large common/dining room and fully equipped kitchen, with a constant supply of hot water. Smoke detectors are installed in all rooms and the building complies fully with Fire, Health and Safety Regulations.
